PROFESSIONAL SUMMARY

Results-driven Frontend Markup Lead and Specialist with over 5 years of commercial experience specializing in advanced HTML/CSS markup, pixel-perfect layout implementation, and web performance optimization. Proven expertise in leading markup development, driving UI/UX quality, optimizing Core Web Vitals, and evolving scalable design systems. Adept at bridging design and engineering to deliver clean, accessible, responsive, and high-performance user interfaces.

WORK EXPERIENCE

BrainRocket

Limassol, Cyprus / Valencia, Spain

Frontend Markup Lead — **May 2026 – Present**

- Leading a team of frontend markup developers, setting architectural standards, and driving best practices for code quality and maintainability.
- Overseeing UI quality assurance, accessibility compliance, and performance optimization across company projects.
- Driving the evolution of company-wide design systems and reusable component libraries to streamline development workflows between design and engineering.
- Mentoring team members, conducting code reviews, and aligning technical execution with product goals.

Frontend Markup Developer — **Jul 2024 – May 2026**

- Developed responsive, accessible, and high-performance frontend interfaces for complex web applications.
- Maintained and scaled reusable UI component libraries in close collaboration with UI/UX and product teams.
- Integrated design systems and translated intricate Figma mockups into clean, semantic, and performant code.
- Optimized web applications for cross-browser compatibility and rendering performance.

Together Networks

Zaporizhzhia, Ukraine

Web Developer — **Sep 2021 – Jul 2024**

- Built and maintained modern web interfaces, ensuring high standards of markup, styling, and cross-browser consistency.
- Collaborated with backend developers to integrate REST APIs and ensure seamless data flow.
- Improved page load speeds and overall frontend performance through code refactoring and modern optimization techniques.
